

Which has been made between Krisztina Illes (Breeder) and (Buyer) on the present day

PUPPY PURCHASED FOR: FAMILY PET BREEDING/SHOW

Name: Itadaki No

Microchip :

Purchase price : EURO

Breeder declares and Buyer acknowledges that the above mentioned puppy has been taken into his/her ownership in a healthy condition without any visible sign of illness. The dog does not have any parasite, visibly seen injuries and has already received vaccinations and dewormers according to his/her age. Breeder hereby declares that she does not know about any obvious or hidden irregularity at the time of handover.

Breeder reminds Buyer to visit his/her veterinary to show the puppy and discuss further vaccinations, dewormings and anti-parasite treatments. This contract + Pet Passport are highly recommended to be shown to his/her veterinary for visibility on dewormings, vaccinations and anti-parasite treatments up to date.

Date of vaccination: in Pet Passport

Date of deworming:

- Drontal (2 weeks of age)
- Drontal (4 weeks of age)
- Drontal (6 weeks of age)
- Advocate spot-on (8 weeks of age)

Date of anti-parasite treatment:

- Frontline spray (5 weeks of age)
- Advocate spot-on (8 weeks of age)

HEALTH GUARANTEE (IF PUPPY PURCHASED FOR PET):

Breeder declares that her breeding dogs are healthy, possesses health tests (HD, Patella, PRA, CEA) but this does not exclude future illnesses of the puppy.

Until the age of 24 months: In case of proven genetical illnesses confirmed by two separate veterinaries, Breeder pays back 50% of the puppy's purchase price after the dog will be neutered and certificate has arrived from vet. Photo must be shown it and need the vet's phone number, contact email address. Puppy's original Pedigree need to send back to Breeder.

For Hip Dysplasia: there is no guarantee as its genetic inheritance is not proven. Please note: two dogs with great hip results might produce a litter with bad hips. Owner needs to be aware of the environmental influences so as to reduce the risk of developing HD, even that is no guarantee unfortunately.

For CEA: there is no guarantee as it does not affect the dog's quality of life.

BREEDING GUARANTEE (IF PUPPY PURCHASED FOR BREEDING):

Breeder declares that her breeding dogs are healthy, possesses health tests (HD, Patella, PRA, CEA) but this does not exclude future illnesses of the puppy.

Until the age of 24 months: In case of proven genetical illnesses confirmed by two separate veterinaries, Breeder pays back 50% of the puppy's purchase price after the dog will be neutered and certificate has arrived from vet. Photo must be shown it and need the vet's phone number, contact email address. Puppy's original Pedigree need to send back to Breeder.

For Hip Dysplasia: there is no guarantee as its genetic inheritance is not proven. Please note: two dogs with great hip results might produce a litter with bad hips. Owner needs to be aware of the environmental influences so as to reduce the risk of developing HD, even that is no guarantee unfortunately.

For CEA: there is no guarantee as it does not affect the dog's quality of life.

Until the age of 12 months it will have incorrect bite or in case of stud dog 0 or 1 undescended testicle (confirmed by two separate veterinaries), Buyer can choose from the following two compensations:

1. Breeder pays back 50% of the puppy's purchase price after the dog is neutered and certificate has arrived from vet. Photo must be shown as proof and the vet's contact details (phone, email) must also be provided. Puppy's original Pedigree needs to be sent back to Breeder.

2. Dog will be transferred back to Breeder on Buyer's expenses. Breeder offers Buyer a puppy from any next litter within 1 year. Transport fee is due to Buyer.

IF PUPPY PURCHASED AS A FAMILY PET it is not allowed to be bred.

If Buyer will use the above mentioned puppy as a breeding dog in the future, the dog has to be transported back to Breeder.

The purchase price of the dog will not be refunded to Buyer, transport fee will be due for Buyer.

* If Buyer wants to use the above mentioned puppy as a breeding dog (s)he may only do it with Breeder’s written permission in advance.

In this case Buyer needs to pay the difference between a pet puppy and show/breed puppy. When money has arrived to Breeder's bank account she will send the Export Pedigree to Buyer to enable him/her to register the dog at his/her Kennel Club.

IF PUPPY IS MALE: Breeder retains the right to use him at stud on any female owned, co-owned or leased by the Breeder, with the understanding that no stud fee or other consideration will be paid to the Buyer by Breeder. This provision shall be limited to a total of two (2) litters in the male's lifetime that result in a minimum of two (2) surviving pups per litter. All Vet charges, including collecting, chilling or freezing and shipping semen will be due to Breeder.

IF PUPPY IS FEMALE: Breeder retains the right to buy one (1) puppy (not first pick but chosen by Breeder) for half of the above mentioned selling price from any future litter. Shipping fee will be due to Breeder.

If Pedigree is not yet processed by the Hungarian Kennel Club at the date of puppy handover it will be sent by Breeder later via FedEx.

We, the undersigned parties declare, that we know and acknowledge all the obligations resulting from this Purchase Agreement. In the event of litigation, it will be held in Hungary following the Hungarian practices.
